DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-5 and 7-8 are rejected under 35 U.S.C. 102(b) as being cleary anticipated by Matsushima (4060114).

Matsushima discloses the claimed invention as claimed in claims 1-5, and 7-8 comprising a shank (1), a spindle (5) with a hexagonal shape, a spring wire (6), a groove (13), and bore (16).

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Matsushima (4060114).
 - a. Matsushima is discussed above.
 - b. Matsushima discloses the claimed invention except for a spring with a width of 2mm. It would have been obvious to one having ordinary skill in the art

Application/Control Number: 09/824,838 Page 3

Art Unit: 3723

at the time the invention was made to have made a spring with a width of 2 mm, since it has been held that a discovering an optimum value of a result effective variable involves only routine skill in the art. *In re Boesch*, 617 F.2d 272, 205 USPQ 215 (CCPA 1980).

Response to Arguments

- 5. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
- 6. Applicant needs to cancels 21 and 22 and change the status identifier accordingly.
- 7. Applicant over came all rejections of the last office action.
 - c. The art of record still reads on the claims of record. The applicant has amended the claims for the better but the invention is still broad enough that the art even reads on the claims as a 102.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LEE D. WILSON whose telephone number is 571-272-4499. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JOSEPH HAIL can be reached on 571-272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
